

## **Paymaster report 03/02/2008**

Fellow Marines,

For information, the last batch of license plates submitted to the Bureau of Motor Vehicles were returned to me since the Bureau had not been notified of PDC Moyse's passing and my designation as the authorized signer for applications from the department. This has been corrected and the applications were re-submitted for processing.

Next, the Paymaster has received a couple transmittals returned from our national headquarters that were submitted direct to their headquarters. This only delays processing since they will not process transmittals that are not sent VIA the Department Paymaster. Please ensure the new detachment paymasters get the word to submit the transmittals in accordance with the instructions thereon. Thanks for your help.

Again, allow me to remind everyone that Installation Forms go to the Department Adjutant and Transmittal Forms go to the Department Paymaster. If there has been a change of officers, the installation form MUST be submitted or the mail will not get to the right place.

Thanks for all you do for the Marine Corps League. See you at the March staff meeting.

Semper Fidelis,

Paul Hastings, Paymaster
